因

why

快

launch fast

找

file navigation

色

syntax highlight

錢

money matters

跨

cross platform

改

customization

掛

tones of powerful plugins

躑

looks like a master

果

so, I choose Vim, 6 months ago

空

I started with an empty `.vimrc`

現

and hosted on github

瘋

some crazy or stupid things

練

I use vim everyday

賺

totally worth it

瑞

I can't go back any more

完

end, and thanks you all :)
